

Do you want to see what items you've checked out before?

Go the library's catalog
<http://www.lmlibrary.org/catalog>

Log in on the left side of the screen using your library card number and password. The password is the same password you use to login to the computers or use the self-check machine.

If you do not know your password, you can ask at the front desk.

Click on  **My Account**

Click on **Checkout History**

If the **Show Checkout History Items** button is on the right of the screen, you can click it to show your history.

Choose **Yes** on the Confirmation Window

Your history will now be displayed whenever you login to the catalog.

If the **Hide Checkout History Items** button is on the right of the screen, you already have show history turned on.

You can choose what time span you want to see by clicking on  **From Date** and  **To Date** and clicking **Apply**.

You can choose to Hide Checkout History Items. If you do you will **erase** your current checkout history and will not be able to see it again.

If you decide to turn it on again, your history will begin from the day you turn it on forward.
